How it works

1 Get your link
Sign up at accusights.com/empower: email, company, tier. Your unique link, QR code and dashboard are live immediately. W-9 comes later, before your first payout.

2 Share it, or register a client
Put the link in your signature, website and newsletter, or register a referral by name in the portal. A client is tagged to you when they sign up within 180 days of clicking, when you register them first, or when they name you.

3 Get paid monthly
Commission accrues on every payment the client makes. Paid by the 15th for the prior month, \$50 minimum (rolls over), by ACH through Stripe Connect. Your dashboard shows clicks, signups, quotes, closed deals, MRR and commission accrued and paid.

ACCUSIGHTS HANDLES

- Scoping, quoting and the sales call (Tier 1)
- Assessments, readiness work, evidence, policies
- 24x7 detection and response (AccuSights LLC)
- Billing, collections, support, and the Readiness Re-Performance Commitment

YOU DO

- The introduction
- Keep the relationship
- Tell us if something changes
- Cash the monthly payout. Nothing else at Tier 1.

Published rates

The rate card is on the website, not behind a sales call.

Lifetime, not first-year

Most programs stop at 12 months or pay a one-time gift card. Empower pays on every payment the client makes.

Adjacent professionals welcome

CPAs and attorneys take the commission with a written client disclosure, or pass it to the client as a discount (Client Credit).

Your book is protected

Rate reductions never touch existing tags. On a change of control, tags bind the successor or are bought out at 3x (Referrer) or 6x (MSP, Platform) your last monthly statement.

AccuSights is not a C3PAO, auditor of record or regulator. We prepare clients for assessment; the assessor or regulator has the final say. Partners never carry the technical liability for AccuSights' work.
